Assignment 1204a Feedback

This feedback is effectively a code review; to keep it concise, notes are provided as a numbered list. Inline comments in your code illustrate an example of the numbered item (there may be more). Asterisks (*) denote high-priority issues. If any code review item is unclear or if the resulting proficiencies are not self-explanatory, please ask me.

Matthew Flickner

Updates based on 12/16/2014 commits:

1. No published version (4a)
 2. Tab in the source code (yes, even if just one, *I will hunt you down and find you :)*) (4c)
 3. ~~Deletion feedback could be better—some uncertainty when truly over the trash can~~ (2b)
 4. Box creation breaks with more than one box: coordinates are getting confused (3a, 3b, 4a)
 5. Inconsistent or suboptimal spacing (4c) *...some improvements, but some glitches still easy to spot*
 6. ~~Incorrect indentation~~ (4c)
 7. Multiple jQuery calls to the same object: can be chained into one long statement (4a, 4c) *...you took out the marker but didn't fix the problem :)*
 8. Inappropriate line breaking (either too much or too little) (4c) *...still there, especially at the else's*
 9. ~~Unnecessary comment block~~ (4c, 4e)
- 2b — | *...much clearer now with the trash; that is a huge difference (+)*
- 3a — / *...still pretty major, but other improvements can take this up (l)*
- 3b — / *...same here (l)*
- 4a — / ...Yeah, these are all mostly from the buggy create. *...improved enough for a bump (l)*
- 4b — +
- 4c — / *...tabs are gone, and things are better but with some stragglers (l)*
- 4d — | *...I wouldn't say you required new information with these changes; creation is still the blocker (l)*
- 4e — + ...Very, uhhh, expressive commit messages. You might qualify for Commit Logs from Last Night (<http://www.commitlogsfromlastnight.com>) one day :)
- 4f — +
